

Kentucky is famous for many things. This year we welcome visitors from all over the world for the 2010 Alltech FEI World Equestrian Games—a first for the U.S.

Whether you are visiting Kentucky for the first time or are a Bluegrass state resident, enjoy the unrivaled spirit of Kentucky as you travel our highways and byways.

Operators also work to prevent traffic crashes by removing debris from the roadway and tagging abandoned cars. SAFE Patrol operators are trained in traffic management and at the scene of a crash can, if necessary, render CPR and first aid, while message boards on top of the vehicle provide instructions to motorists during an incident.

To request SAFE Patrol call the Highway Hazard Hotline at 1-877-FOR-KYTC (1-877-367-5982)

Sharing the Road

BICYCLISTS

- Bicyclists and motorists have the same rights, rules and responsibilities on all Kentucky roads.
- Ride a bicycle in the same direction as vehicle traffic, in the right side of the lane. Use extreme caution when changing lanes.
- Wearing a bicycle helmet is strongly recommended.
- Obey traffic signals and signs. Stop at stop signs and lights just like a motor vehicle.
- Use hand signals to communicate intended actions to motor vehicles.
- At night, a bike must have a white light visible from the front and a red reflector or light visible from the rear. Reflector tape may be used for added visibility. Wear light colored clothing.
- Yield to pedestrians in crosswalks. Give an audible warning (bell, horn, or voice) before passing pedestrians, especially on a shared use path.
- Never park a bicycle on a sidewalk to obstruct pedestrian traffic.

MOTORISTS

- Pass a cyclist only when it is safe. Allow at least 3 feet between your car and the cyclist; be sure there is no oncoming traffic.
- Bicyclists may take the center position in the lane when hazards, road width or traffic speed cause a change.
- Yield to pedestrians in a crosswalk.
- When opening the door of your parked car, check behind for cyclists.
- Watch for bicyclists. Because of their narrow profile you will need to develop your eye-scanning patterns to include cyclists.
- Do not be a litterbug. Keep our roadways clean for everyone.
- Do not honk your horn when approaching bicyclists. You can startle the cyclist and cause a crash.

SPEED LIMIT

70 mph on rural sections of Kentucky's interstates and on most parkways. Other roads 55 m.p.h. or as posted.
